Meditation is a practice where an individual uses a technique – such as mindfulness, or focusing the mind on a particular object, thought, or activity – to train attention and awareness, and achieve a mentally clear and emotionally calm and stable state.. Meditation is practiced in numerous religious traditions. The earliest records of meditation are found in the Upanishads, and meditation ...

Meditation - Wikipedia

For an activity to be considered guided play, the paper says the adult should have a clear "learning goal" in mind for the child to develop, but that the child should have some choice in the activity, while the adult should guide them in a "flexible" way, for example through asking open-ended questions.

'Guided play' better for children's early maths skills ...

Riding close to the center, feel all of the qualities of your personality. Your history and your timeline of coming to this moment, all of it as the little circle around the center. And that all has movement and activity and identity. And yet right in the center of that is the quiet point.
