We can only fly with two wings and two wings can only stay in the air if there is a balance. Two beautiful wings is perfection. There is a generation of people who idealize perfection as the existence of only one of these wings every time. But I see that a bird with one wing is imperfect. An angel with one wing is imperfect.

The dodo (*Raphus cucullatus*) is an extinct flightless bird that was endemic to the island of Mauritius, which is east of Madagascar in the Indian Ocean. The dodo's closest genetic relative was the also-extinct Rodrigues solitaire. The two formed the subfamily Raphinae, a clade of extinct flightless birds that were a part of the family including pigeons and doves.
