How does STEMscopes help under-performing students? Intervention can be a big challenge in today's time-crunched classrooms. We offer teachers easy, manageable solutions to reach under-performing students such as small-group hands-on guided practice experiments, CLOZE passages, and a breakdown of the language of each standard to make learning the content easily digestible.

### **Frequently Asked Questions | STEMscopes**

Every STEMscopes Math lesson is built from the ground up to the standards. Chunking information into bite-size pieces, we make our units (called "scopes") digestible and engaging. On average, a scope takes one to two weeks.

STEMscopes has greatly helped me incorporate engaging, exploratory, and hands-on activities into my science lessons. Instead of "old school" teaching techniques that heavily utilize boring science books and comprehension questions, this curriculum provides teachers with fully prepared lessons that allow students to be more engaged and play active roles in their learning.
