Educator Guide: Soda-Straw Rockets | NASA/JPL Edu

Early rocket pioneers created what at the time seemed impossible – rocket-propelled devices for land, sea, air and space. When the scientific principles governing motion were discovered, rockets graduated from toys and novelties to serious devices for commerce, war, travel and research, and made some of the most amazing discoveries of our time possible.

Synonym

Supplies: Marshmallows; Toothpicks; So my preschooler saw me setting this activity up and was chomping at the bit to get into it! We briefly talked about building tall towers and how sturdy bases are necessary for giving them their height, but he was more interested in learning those lesson in a hands-on way (which is perfect because hands-on learning is always more meaningful than a lecture.
